AGRICULTURAL MACHINES AND SPARE PARTS FOR BALTIC REPUBLICS

RECEIVE NEW AGRICULTURAL MACHINES -- Vil'nyus, Sovetskaya Litva, 25 Sep 53

New agricultural machines have been delivered to warehouses of Litsel'khozsnab (Lithuanian Agricultural Supply), Ministry of Agriculture and Procurement Lithuanian SSR. A shipment of KhTZ-7 tractors, the first, to be sent to the Lithuanian SSR, has been delivered from Khar'kov. Forty tractordrawn planters and various spare parts were sent by the Kirovograd Krasnaya Zvezda Agricultural Machine Building Plant. Tractor-drawn cultivators have

The Kaunas Atrama Plant and the Vil'nyus Agricultural Machine Building Plant supply kolkhozes of the Lithuanian SSR with feed steamers, automatic watering troughs, spare parts, and other equipment.

PRODUCE SPARE PARTS -- Tallin, Sovetskaya Estoniya, 34 Sep 53

The Tallin Machine Building Plant produces several types of plowshares and moldboards, various other plow parts, poteto harvesters, and other

The plant has fulfilled its production plan for spare parts for agricultural machines in the first 8 months of 1953 by producing 8,000 parts above the plan. The plant has failed, however, to fulfill its quota for individual items. As an example, the plant failed to produce 1,000 plowshares

LATVIAN SSR RECEIVES FARM EQUIPMENT -- Riga, Sovetskaya Latviya, 4 Oct 53

Many machines arrive in Riga daily for distribution among the kolkhozes, sovkhozes, and MTS of the Latvian SSR. Recently, 50 grain dryers arrived from the Gomel' Gomsel'mash Agricultural Machine Building Plant. During September 1953. 36 movers were brought in to Riga, and several railroad cars with agricultural machines, spare parts, and tools arrived from Lyubertsy, Tula, and other cities.

FAIL TO FULFILL PLAN -- Riga, Sovetskaya Latviya, 4 Oct 53

A considerable number of industrial enterprises in the Latvian SSR are behind in their production of agricultural machines. Especially delinquent are the enterprises under the Metal Trust (Ratniyek, director), Ministry of Local and Fuel Ir astry Latvian SSR.

During the third quarter of 1953, the Riga Krasnyy Metallist Plant was to produce 5,000 plowshares and 2,500 moldboards. The plant has not fulfilled its production assignment.

The Riga Nut and Bolt Plant is not fulfilling its assignment for rivets used in production of harvesters, combines, and mowers.

EXCEEDS PRODUCTION PLAN -- Kiev, Pravda Ukrainy, 9 Oct 53

The Riga Imanta Agricultural Machine Building Plant has exceeded its production plan for the first 9 months of 1954. The plant produced four threshers and 60 grain sorters and graders over the plan.

In October 1953 the plant made its first shipment of tractor-drawn sweep rakes to MTS of the Latvian SSR.

During the first 9 months of 1953 the plant shipped hundreds of railroad cars of agricultural machinery to kolkhozes and sovkhozes of the Latvian

Riga, Sovetskaya Latviya, 24 Sep 53

A. Shapovalov, director of the Riga Imanta Agricultural Machine Building Plant, complains that the plant's operations are impeded by failures in deliveries of parts by the following Riga plants: the Nut and Bolt Plant (Popov, director); the Baltiyas Rupnieks Plant (Sterlin, director); and the Omega Bicycle Plant (Zholkovskiy, chief engineer).
